

PRECISION BORESCOPIES

**Hawkeye® Angled Eyepiece**

When you cannot position your eye close to a borescope eyecup, the Hawkeye Angled Eyepiece makes it accessible. It clamps onto the eyecup and reflects the image 90° through its own focusing eyepiece.

**Angled Eyepiece** (AE-9003) \$275

*The Hawkeye Angled Eyepiece inverts the image, correcting the image inversion of a mirror tube. Its excellent optics sustain the high image quality of the borescopes.*

**Video Coupler Lens**

The Video Coupler Lens connects borescopes to video cameras for live video inspection and documentation. They deliver a full field-of-view and are available in 25 mm, 35 mm and 75 mm focal lengths.

Item	Catalog #	Price
25 mm Focal Length Coupler	VC-25	\$395
35 mm Focal Length Coupler	VC-35	\$395
35 mm Adjustable Focus Coupler	HVA-2	\$495
75 mm Focal Length Coupler	VC-75	\$595

**Protective Sheaths**

Protective sheaths fit over Pro or Classic rigid borescopes. We offer them in all diameters for 3" - 22" scopes. Call, or visit, our website for Catalog #.

Item	Price
Protective Sheaths	\$75

## Components

Most customers buy complete Hawkeye® Pro and Classic Borescope Kits. However, all of the kit components are also available separately and are listed below. **Prices are for borescopes only. Light sources and cases are sold separately.**

**Hawkeye® V2 Video Borescope Accessories**
